

Network Connectivity

HellermannTyton network connectivity products are tested and guaranteed to ensure network performance at the highest potential. We offer a wide variety of copper and fiber solutions, including GST keystone jacks, patch panels, enclosures and patch cords. Network racks, vertical and horizontal cable managers and accessories complement installations.

RapidNet® Pre-terminated Connectivity Solutions

RapidNet is a patented, connect-and-go pre-terminated system providing high-performance copper and fiber solutions within the same footprint. Pre-terminated RapidNet systems increase speed of installation while reducing waste materials and enabling cleaner jobsite installs.

Copper Solutions

Full structured cabling solutions include Category 6A, Category 6 and Category 5e product lines for high-performance, quality engineered installations. Certification programs, system warranties and training opportunities provide a well-rounded solution.

Fiber Solutions

From the data center to the work station, HellermannTyton fiber solutions include high-quality components to help achieve optimal bandwidth and performance at different density requirements.

HellermannTyton

Cable Management and Accessories

Maximize organization and appearance in the data center with managers, racks, shelves, panels and enclosures that integrate easily with structured equipment and connectivity components.

Identification

Print and label electrical, data and automation equipment with confidence. HellermannTyton provides high performance labeling solutions that save time and help meet industry codes and standards.

Labels and Nameplates

Designed for lasting performance in a variety of industrial settings, indoors and out, HellermannTyton labels, placards and nameplates help create efficient and safe environments by marking hazards, equipment and network components.

Printers and Software

HellermannTyton thermal transfer printing systems, label design software and mobile apps enable easy, long-lasting labeling to help meet codes and standards.

HellermannTyton is a leading, global manufacturer of cable management, identification, and network connectivity products that improve electrical and communications systems. Through product line differentiation and a systems approach to new product development, HellermannTyton offers solutions that improve the performance, safety and installed costs for the OEM, commercial and industrial markets.

Electrical and Datacom Solutions

HellermannTyton

Bundling & Securing

HellermannTyton's innovative solutions for bundling and securing wires, cables and hoses are designed for high performance and durability. From high heat and heavy duty cable ties, to hose clamps and edge clips, we offer a comprehensive variety for every application and environment.

Cable Ties

Available in specialized, high-performance materials, HellermannTyton cable ties come in a variety of sizes to accommodate wire and cable bundles in a range of applications. Choose from high heat and UV resistant nylons and stainless steel materials.

Self-Affixing Ties

Cable ties with an integrated mount offer fast and secure bundling. Choose from a wide variety of mounting styles, including edge clips, fir trees and button heads; for mounting to tubular frames and flat panels.

Cable Tie Mounts

Mounting bases and cable tie mounts offer endless options to secure and route cable and wire bundles on a variety of surfaces.

Bundle Separators

Install between two cables or bundles to separate and prevent abrasion and wear.

Clips and Clamps

Choose from a wide range of clips and clamps to route and secure flat and round wires, cables and hoses, including edge clips for routing along flat edges.

Application Tools

HellermannTyton's innovative manual, pneumatic and automatic tool systems are designed to reduce installation times and labor costs while minimizing associated hand injuries.

Cable Tie Tools

EVO® Series manual tools are designed to be the most ergonomic tools on the market. Pneumatic and automatic systems integrate easily into high-volume and assembly line applications.

Routing, Protection & Insulation

HellermannTyton offers a wide variety of cable protection methods and systems providing varying degrees of protection against debris, liquids, abrasion, puncture and extreme temperatures. Manufactured of advanced materials to withstand heat, UV light, vibration and chemical exposure, our protection solutions offer superior performance and flexibility with minimal weight.

Braided Sleeving

From expandable and wrap-style sleeving to hook-and-loop closure options, HellermannTyton braided sleeving provides flexible, lightweight cable protection. Specialty sleeving materials protect against extreme temperatures, flames and electromagnetic interference.

HelaGuard Flexible Conduit & Fittings

Comprehensive and versatile system includes flexible conduit, tubing, fittings and accessories that work together to provide flexible protection of wires and cables from liquids, dirt, UV light and more.

Flexible Cable Protection

Flexible, semi-rigid materials route bundles and provide protection from abrasion, vibration, movement, pinching and sharp edges.

Surface Raceway

Aesthetically appealing and highly functional, HellermannTyton's non-metallic surface raceway is used for low voltage and power-rated applications. A unique "living hinge" on the surface raceway allows a secure closure and protection, with the added ability to open for rework without causing stress cracking.

Wiring Duct

With a broad range of sizes, HellermannTyton's wiring duct line features smooth edges and multiple score lines that allow for safe and effortless finger break outs; non-slip, write-on covers that remain secure even in high-vibration applications; and external width dimensions for ease of specification.

Insulation Products

Offered in a range of colors, diameters, wall thicknesses and shrink ratios, heat shrink tubing provides dependable and secure protection for wire and cable splices. Butyl rubber electrical tapes insulate and identify wires.
