

2021 Defence Solutions

ABOUT US

Çevik Connection Technologies which was established in 2003 has been the Turkey representative of leading companies in the field of connection technologies. It provides fast and quality service with its wide ranged stock and experienced staff in all process from design to mass production.

It continues to expand its power by branding its production department in 2011 and establishing **Kabsis**. In addition **iletken.net** was founded in 2020 according to requirements of sectors.

Çevik considers its customers as business partners. For this reason, our team principles to meet its customers with timely, accurate and quality service and producing solutions in line with their wishes. It is always the priority to provide 100% customer satisfaction by showing the expected effort with its professional team.

Our company which the head office is located in Istanbul Sancaktepe, has offices in Ankara, İzmir and Bursa.

We attach much importance to corporate communication, internal communication, corporate values and quality policies.

Our quality policy;

- To deliver our products on time and without mistakes,
- To keep customer satisfaction at the highest level,
- To ensure the continuity of motivation and loyalty of our employees
- Constantly renewing itself with a learning organization,
- To provide fast solutions in the face of changing conditions,
- To adopt international professional rules as a principle.

The values we take up seriously;

- Being reliable
- Continuously improving our technical skills
- Embracing a long-term strategic approach
- Making working with us a pleasure
- To always be an innovative company

Sectors;

- Defense
- Space & Aerospace
- Commercial vehicles
- Industrial
- Transportation
